PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student at Vellore Institute of Technology - Andhra Pradesh with a strong specialization and keen interest in Artificial Intelligence, Software Development, and Next-Generation AI Architectures. Proficient in Python, Java, C, and frontend web technologies. Actively engineering practical solutions and pursuing deep learning tracks across Agentic AI workflows, Prompt Engineering, Generative AI applications, and Neural Networks. Passionate about structured algorithmic problem-solving and rapid continuous technical adaptation.

EDUCATION

Vellore Institute of Technology - Andhra Pradesh (VIT-AP)

Bachelor of Technology (B.Tech) – Computer Science and Engineering

TECHNICAL SKILLS

Programming Languages	Python, Java, C Programming
AI & Emerging Tech	Prompt Engineering, Generative AI Fundamentals, Machine Learning, Agentic AI, Neural Networks
Web Technologies	HTML, CSS, Responsive Web Design
Tools & Platforms	Git, GitHub, Visual Studio Code

PROJECTS

Smart Shoe for Blind Navigation / *Assistive Technology Concept*

- Engineered a conceptual solution focusing on obstacle detection and tactile navigation metrics for visually impaired environments.
- Architected hardware-software baseline interfacing ultrasonic logic models with live positional feedback signals.

AI Learning & Experimental Frameworks / *Applied Research*

- Designed hands-on implementations mapping structural LLM APIs, custom Prompt Engineering workflows, and stateful multi-agent orchestrations.
- Analyzed neural layer initializations and foundational backpropagation metrics via sandbox ML architectures.

Personal Portfolio Website / *Web Development*

- Developed a clean, fully responsive platform from scratch utilizing native semantic HTML and clean architecture CSS styles.
- Optimized user experience layouts to clearly compartmentalize professional skills, project portfolios, and live contact points.

CERTIFICATIONS & LEARNING

- IBM Generative AI Program
- Python Programming Suite
- Java Core Fundamentals
- Agentic AI Workflows (Deep Study)
- Neural Network Architectures

SOFT SKILLS & CORE TRAITS

- Structured Problem Solving & Logic
- Cross-functional Team Collaboration
- Adaptive Rapid Framework Mastery
- Technical Event Coordination

LANGUAGES

- **English** (Professional Proficiency)
- **Telugu** (Native/Bilingual Proficiency)
